- Assessment for medical procedures including bariatric surgery and spinal cord stimulation implants; diagnosis and psychological treatment of eating disorders and chronic pain
- Volunteer community service and education regularly provided to news media and community agencies.
-

Assistant Clinical Professor

August 1981 to 1986

Shasta Cascade Family Practice Residency Program, University of California, Davis Affiliate, Redding, California

- Design, implementation, and supervision of a behavioral health program in a semi-rural Family Practice Residency Program.
- Selection of Family Practice residents; organization of monthly psychiatric seminars; presentation of weekly behavioral science seminars focusing on interview skills and psychological diagnosis; instruction in basic intervention techniques and referral resources. Process and support groups for the Family Practice residents were an integral part of the program.

Clinical Psychologist

May 1979 to August 1981

Shasta County Mental Health Service Outpatient Clinic, Redding, California

- Intelligence and personality testing; written and verbal psychological evaluations; initial intake; referral of patients to other community resources; crisis intervention; evaluation for emergency hospitalization, including assessment of mental competence and staff/peer review and presentations.

Post Doctoral Intern

August 1978 to April 1979

Orange County Human Service Agency, Mental Health Services, Orange, California

- Supervised experience: Intensive individual, family, couples, and group psychotherapy in outpatient, child, and adolescent services. The patient population included patients exhibiting severe and/or chronic psychopathologies.

Post Doctoral Intern

July 1977 to August 1978

Long Beach Veterans Administration Medical Center, Long Beach, California

- Supervised experience: Psychological testing, evaluation and formulation of treatment plans, staff presentations, intensive, individual and group therapy, hypnotherapy, and assertiveness training following services; spinal cord injury, psychiatry admissions, general medical, alcohol treatment, mental hygiene, and chronic pain.

Psychological Assistant

February 1978 to June 1978

Supervisor: George Demos, Ph.D., Long Beach, California

- Supervised experience: Individual psychotherapy, hypnosis, relaxation and biofeedback with patients experiencing intractable pain and adjustment reaction to loss of physical function and jobs as a result of physical injury.
